

Master of Energy Efficient and Sustainable Building (Top-up)

			Programme Structure	
Semester	Course Title	Credit Points	January Intake	July Intake
BUSM2737	Energy Moisture and Airflow in Buildings	12	Semester 1	Semester 2
BUSM2739	Building Sustainability Assessment	12		
BUSM2740	Sustainable Facades and Materials	12		
BUSM2742	Sustainable Building Design Project	12		
BUSM2738	Building Modelling and Simulation	12	Semester 2	Semester 1
BUSM2743	Managing Sustainable Building Projects	12		
BUIL1331	Sustainable Building Investigation	24		
BUIL1330	Sustainability in the Built Environment: A focus on building and design*	12		
	Total credit points	108		

**Exemption to be granted to appropriate applicants, as assessed and approved by RMIT on case-by-case basis.*
