New students decide in July what their timetable will look like. SIM organises 3 to 4 class groups for the level 100 courses.

The lessons are held on fixed days. If you choose Economics Class LP10 on Mondays, it will be held every Mon for 21 weeks.

For half courses in Maths and Stats, students attend the first 12 lessons of MT105A followed by the another 12 lessons of the other half course, ST104A.
